 **MONARCH**  
GROUP

# AI Solutions by the Monarch Group

At The Monarch Group, we help organizations and entrepreneurs use AI tools in a practical and human way. Our focus is simple. We show you how to save time, think bigger and stay authentic while integrating AI into your daily systems with confidence.

## **AI Training & Implementation Workshops**

Interactive, hands on training sessions that show your team how to use AI tools effectively and responsibly. Each workshop is customized to your goals, whether you want support with marketing, administration, customer communication or leadership tasks. Teams learn how to write strong prompts, streamline everyday work and use AI in a way that protects your voice and values. Participants leave with tools they can apply the same day.

*Investment: \$750 to \$2,500*

## **Custom AI Brand Voice Setup**

We turn ChatGPT into a writing assistant that sounds like your brand every single time. Our team builds your personalized Brand Starter System, including your tone guide, writing style, and custom prompts so your messages stay clear and consistent. You receive a full voice guide, five ready to use prompts and a one hour setup session to help you integrate it into your content, marketing and client communication.

*Investment: \$500 to \$1,200*

## **AI Workflow Design & Coaching**

A strategic service that shows you exactly where AI fits in your business and where it does not. We audit your current processes, design simple AI supported workflows and guide you through implementation so you see real time savings. Most clients streamline two to five processes, reduce admin time and gain clearer structure across their team. Monthly coaching is available for organizations that want continued support and accountability.

*Investment: \$2,000 to \$6,000/ Ongoing Coaching: from 300 per month*

## **The AI Content Accelerator Course**

A virtual program that teaches you how to make AI your creative partner. Learn how to train ChatGPT in your voice, plan content with more clarity and use AI tools in an ethical and authentic way. The program includes recorded videos, templates and simple systems you can use to speed up content creation and everyday productivity. Self paced. Immediate access.

*Investment: 297*
